

“Check Technology Solutions is a leading manufacturer of microclimate control systems serving a variety of different industries including healthcare, food service, construction, agriculture, marine, motorcycle and aviation. The Company prides itself on being a US manufacturer, building high-quality innovative products. Originally founded in 1993 by the late Robert Check, the company reemerged in 2018 as Check Technology Solutions via an investment partnership between Check Corporation’s management and Sage Capital. Due to its outstanding inspection performance and intuitive programming software, our MV-6 OMNI 3D AOI machine has become a vital component in our defect detection capability allowing us to strive for 100% customer satisfaction” Bob Check - President
