

“Epic Technologies’ Ohio Valley Operation is a High Mix, Medium Volume EMS Facility. This environment requires an AOI solution that will program fast, inspect fast, and provide superior fault detection for both our Thru-hole and SMT assemblies. After an in-depth evaluation of the top AOI vendors, we selected MIRTEC as the one system that would meet all of our demanding requirements.”

Don Elsbernd, Test Engineer at EPIC Technologies, LLC

ADVANCED TECHNOLOGY

- ▶ MV-7xi Five Camera In-Line AOI System
- ▶ Exclusive 10 Mega Pixel ISIS Vision System
- ▶ Precision Telecentric Compound Lens Design
- ▶ Integrated Intelli-Scan Laser Inspection System
- ▶ Extremely Simple Programming and Operation
- ▶ Unsurpassed Defect Detection
- ▶ “World Class” Global Customer Support
