

“SMT Northwest has been providing state-of-the-art Electronic Manufacturing Services since 1996 and has earned a solid reputation as a cornerstone in the Pacific Northwest. Our company provides a wide range of products and services to some of the most demanding markets. For over a decade, SMTNW has relied upon MIRTEC inspection equipment to maintain our high-quality production standards. We recently purchased a new MIRTEC MV-3 OMNI Desktop 3D AOI machine. The superior performance of this system has allowed us to process higher production volumes and meet the exacting level of quality that is expected by the Power and Defense Industries. MIRTEC’s exceptional products combined with their fantastic support have made them a valuable business partner throughout the years.” Angela Stalker - Quality Manager, SMT Northwest, Inc.
